PROJECTS

Pet Speak Health V2 | https://github.com/Nolsar/Pet_Speak_Health_v2.0 | <https://pet-speak-health-v2.herokuapp.com/>

- Pet Speak Health (PSH) enables the storage of medical notes, history, and other relevant medical records specific to a pet and their owner. Pet Speak Health uses STT (Speech to Text) notation for when your hands are occupied caring for a per.
- Core responsibilities of the project included setting up the database and authenticating and using the IBM Speech-To-Text API.
- Node.js, yarn, React, IBM Watson & IBM Cloud, Firebase, MySQL, Express

Employee Directory | https://github.com/Nolsar/Employee_Directory | https://nolsar.github.io/Employee_Directory/

- A web application that lists all employees in one directory using React. The user can search employees by their first or last name, or sort the employees by their phone number or email address.
- Setting up the React application from scratch, adding functionality and styling.
- JavaScript, React.js, HTML, CSS

Online-Offline Budget Tracker |

https://github.com/Nolsar/Online-Offline_Budget_Trackers |

<https://shielded-wildwood-66211.herokuapp.com/>

- This application gives users a fast and easy way to track their money, as well as allowing them to access that information anytime. Having offline functionality is paramount to our applications success.
- Core responsibilities include building a PWA (progressive web application) that allows users to be able to add expenses and deposits to their budget with or without an internet connection.
- HTML, CSS, Bootstrap, Javascript, jQuery, Backend technologies, Node.js, MongoDB, Express, Heroku (Deployment)

EXPERIENCE

Practice Manager | Banfield Pet Hospital

MAY 2019 – PRESENT

- In partnership with the Chief of Staff, managed day-to-day operations ensuring the team provides the highest quality of veterinary care.
- Responsible to oversee staff recruitment, training, supervision and appraisals; addressed employee issues with confidentiality; directed the cross-training of personnel to effectively utilize employees as well as to build skill levels
- Optimized technology, standardized processes and procedures, identified and resolved workflow issues
- Oversees inventory and purchases of medical and office supplies
- Provide monthly reporting with recommendations or action plans on any issues; interpret financial reports/data to effectively manage the office.

Shift Lead | Banfield Pet Hospital

MAY 2015 – MAY 2019

- Helped provide day-to-day supervision of the team when called upon and responsible for ensuring quality medical care, exceptional client service, associate engagement and maximum productivity.
- Helped foster an environment where a team can deliver quality, efficient and effective veterinary care while promoting an environment that engages associates.
- Providing professional, efficient and exceptional client service ensuring all associates do the same, to include client education about preventive care, pet health needs, hospital services, marketing campaigns, and other related information.
- Assisting in effectively scheduling associates to meet client needs accordingly, while proactively planning time off.

- Ensured compliance of all practice policies and procedures in accordance with company protocols.
